- **Package Management:** NPM, Yarn, Bower
- **Libraries:** Leafletjs, Fullcalendar, Momentjs, Lodash, Underscorejs
- **Task Runner/Bundlers:** Gulp, Webpack
- ASP.NET MVC

Database Management Systems: MySQL, PostgreSQL, MS SQL Server

Task Management: Jira, Trello

Mockups Tool: Balsamiq

Other:

- Hands-on experience with Cloud Computing Platforms: Heroku and Azure
- Good understanding of Restful API. Have knowledge of Single Page Applications and Multi Page Applications
- Have knowledge of OOP, SOLID principles

LANGUAGES

English: Good in English

EDUCATION

HUTECH University, Ho Chi Minh City 2013 - 2018

Degree title: Information Technology Engineer

- **Subjects included:** Management System Database, Object Oriented Programming (OOP), Programming Techniques, Software Technology, Information Security, Project Management, Tools and Software Development Environment, Design, and Analysis Database
- **The project below that I participated in when I was in school:**
 - A website sell traveling clothes (ASP.NET MVC): <http://huyvu.azurewebsites.net>

PERSONAL PROJECT

My wife and I opened a shop to sell noodles and I built a website to sell products and manage the shop **07/2019 - 11/2019**

- **Website:** <http://www.foodtechshop.vn>
- **Github:** <https://github.com/huynghuy22994/ylaProject>

INTERESTS

- Reading Book, Business, Traveling, Research new knowledge

WORK EXPERIENCE

Full Stack Developer
Chinta Viet Nam Co.,LTD

01/2020 - 06/2023

Project: [Chinta Coffee](#)

- Chinta is a startup. The startup operates in the field of F&B. My responsibility is developing 3 website applications to manage the coffee shops of Chinta, inclusions:
 - **Chinta POS (point of sale):** the web application allows staff to create provisional invoices when selling
 - **Chinta Merchant:** the web application and the mobile app allow store owners to track revenue, schedule work and manage staff
 - **Chinta Staff:** this web application allows staff to view the working schedule, register the schedule, and view the salary board
- **Technologies:**
 - **Front End:** AngularJs, Bootstrap 4, Javascript, JQuery, FullCalendar, LeafletJs, MomentJs, Lodash
 - **Back End:** NodeJs, ExpressJs, Swagger, Sequelize, Nodemailer, Firebase, Node-Cron
 - **Database:** PostgreSQL
 - **Mobile App:** React Native, Expo
 - **Cloud Computing Platforms:** Heroku
- Mobile app: <https://play.google.com/store/apps/details?id=com.chintavietnam.chintacoffee>

Front End Developer
TMA Solutions, Quang Trung Software City

07/2017 - 07/2019

Project: [Omnivista Cirrus](#)

- The project develops the system base on the web application to manage network devices.
- **Technologies:**
 - **Front End:** AngularJs, Bootstrap 3, Stylus, Javascript (only use ES5), Gulp
 - Implement proxy server by Nodejs
- **Responsibilities:**
 - Implements new feature on demand through tasks on Jira
 - Fixing bugs and enhancing features.
 - Review code and help the project manager to mentor junior members of the UI team. Sometimes, I also refactor the code of junior members whom I mentor
- **Other:**
 - Here, I got to join a Scrum team that uses the Agile Scrum software development process
 - I joined the R&D team, where I took on the role of implementing Front End with VueJs

Junior Javascript Developer
IMT Solutions, Tan Binh, Ho Chi Minh City

04/2017 - 06/2017

- In this company, I have joined a project which develop a website application used to rating images or videos by the users
- **Technologies:** Nodejs, ExpressJs, Swagger, MongoDB
- **Other:**
 - Here, I have trained in Nodejs and modules of Nodejs
 - Fixing bugs
 - Implement a simple API gateway to CRUD

Internship
ISC-Quang Trung, Quang Trung Software City

12/2016 - 04/2017

- I got a training course about working processes (Agile and Scrum), soft skills, English writing & communication in working place and web development.
- I learned about creating a NodeJS server to provide the API, then using AngularJS on the Front-end side to display these data.
- **Project:** During the internship, I participated 2 projects
 - Project 1: Human management software center ISC.
 - Github: <https://github.com/tienthanh2509/isc-node7>
 - Project 2: Caro game web app.
 - Github: <https://github.com/minhducisc/gameCaro>
